Language Skills-Academic Year:2021-2022

Language is an integral component of communication and helps professionals interact with colleagues, managers and clients effectively. There are four core language abilities that help people exchange ideas, thoughts and emotions. Knowing about these four skills can help improve your communication in the workplace and interaction with customers. In this article, we define language skills, explain four essential language abilities, discuss how to improve them, list their utility in the workplace and share ways of highlighting them when applying for jobs.
